

HOW TO: Get directions and maps in the RMC App!

In each event's details, a map will be included. Clicking on the map will bring up a larger map of the surrounding area.

Clicking the button that looks like these   in the bottom left-hand corner will prompt you to open the map in your device's maps app.

Your map app will use your GPS signal to give directions from your current location or a different location of your choice.
